

The FCC should not implement and proposal that would lessen Indiana's Telephone Privacy law protections. The privacy law has pretty much eliminated unwanted solicitor phone calls to our home making our home environment much more peaceful. We can control solicitors coming to our door by putting out signs, but we need this legislation to protect our privacy from unwanted phone calls. We use to receive on the average 5 or 6 solicitor calls per week. Now, with the new law, we only receive about 2 per month. The law has had a very positive impact on the quality of our home life and it would be a big step backwards if it was diluted or eliminated. Please vote to keep it in place with its current guidelines.

Thanks!
